V & H FABRICATORS PRIVATE LIMITED

NOTES TO THE STANDALONE FINANCIAL STATEMENTS :-

SIGNIFICANT ACCOUNTING POLICIES:-

1. Basis of accounting and preparation of financial statements:

These financial statements are prepared on historical cost basis except for certain financial instruments which are measured at fair value at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and service. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The financial statements are presented in Indian Rupees (INR).

2. Summary of Significant Accounting Policies:

(A) Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reporting period. The estimates and assumptions used in the financial statements are based upon the Management's evaluation of the relevant facts and circumstances as on the date of financial statements. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results may vary from these estimates.

(B) Property, Plant and Equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation. The cost of Property, plant and equipment comprises its purchase price including duties and other non-refundable taxes or levies and any directly, attributable cost of bringing the asset to the working condition for its intended use. Depreciation on Property, plant and equipment is provided based on the useful life of the asset in the manner prescribed in Schedule II to the Companies Act, 2013. The company has estimated useful life of each class of assets based on the nature of assets, the operating condition of the asset, past history of replacement, anticipated technological changes etc. The company reviews useful life of assets at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

(C) Intangible Assets Under Development

Intangible Assets Under Development comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date.

Upon first-time adoption of Ind AS, the Company has elected to measure its intangible assets at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., 1st April, 2016.

Sam

(D) Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(E) Inventories

Inventories of construction material and consumables & stores & spares are valued at cost price. The work in progress consist total cost attribute to the said work (As value certified by management).

(F) Impairment of Non-Financial Assets – Property, Plant and Equipment and Intangible Assets:

The management periodically assesses using, external and internal sources, whether there is an indication that an assets may be impaired An assets is treated as impaired when the carrying cost of assets exceeds its recoverable value , An impairment loss is charged to the Profit & Loss account in the year in which an assets is identified as impaired The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

(G) Revenue recognition

Revenue on contact business is recognized on complete of work or part of work for which bill is raise to the Party and for which realization is certain.

(H) Other Income

Interest: Interest income is recognized on a time proportion basis taking into account the amount outstanding and for which realization is certain.

(I) Taxes on income

Tax expense comprises current and deferred tax. Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying value of the assets and liabilities and their respective tax bases, unutilized business loss and depreciation carry forwards and tax credits.

(J) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the Financial Statements. Financial Assets are only disclosed where an inflow of economic benefits is probable and recognized if inflow of economic benefits is virtually certain.

Sauve

(K) Earnings per share

Basic and diluted earning per share is computed by dividing the profit or loss after tax by the weighted average number of equity shares outstanding during the year. The company did not have any dilutive securities in any of the periods presented.

(L) Cash Flow Statement

Cash flow is reported using indirect method. The cash flow from operating, financing and investing activities of the company is segregated.

(M) Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

(N) Financial Instruments

Recognition & Measurement

a) Financial Assets

Financial Assets are recognized when, and only when, the company becomes a party to the contractual provisions of the+B11 financial instrument. The company determines the classification of its financial assets at initial recognition

When financial assets are recognized initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss directly attributable transaction cost. Transactions cost of financial assets carried at fair value through profit or loss are expensed in the statement of profit and loss.

b) Financial Liabilities

Financial Liabilities are recognized when, and only when, the company becomes a party to the contractual provisions of the financial instrument. The company determines the classification of its financial liabilities at initial recognition.

When financial liabilities are recognized initially, they are measured at fair value, plus, in the case of financial liabilities not at fair value through profit or loss directly attributable transaction cost

Equity Instruments: The Company subsequently measures all equity investments (other than the investment in subsidiaries, joint ventures and associates which are measured at cost) at fair value. Where the Company has elected to present fair value gains and losses on equity investments in other comprehensive income ("FVTOCI"), there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognized in Statement of Profit and Loss as other income when the company's right to receive payment is Established. At the date of transition to Ind AS, the company has made an irrevocable election to present in Other Comprehensive Income subsequent changes in the fair value of equity investments that are not held for trading.

S. V. S.

When the equity investment is derecognized, the cumulative gain or loss recognized in other comprehensive income is reclassified from Other Comprehensive Income to Retained Earnings directly.

Determination of Fair Value: The fair value of a financial instrument on initial recognition is normally the transaction price (fair value of the consideration given or received). Subsequent to initial Recognition, the company determines the fair value of financial instruments that are quoted in the active markets using the quoted bid prices(financial assets held) or quoted ask price(financial liabilities held). Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range. These investments in equity instruments are not held for trading. Instead, they are held for medium or long term strategic purpose. Upon the application of Ind AS 109, the group has chosen to designate these investments in equity instruments as at FVTOCI as the directors believes this provides a more meaningful presentation for medium or long term strategic investments, than reflecting changes in fair value immediately in profit or loss.

(O) Estimation of uncertainties relating to the global health pandemic from COVID-19:

The company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of receivables, intangibles, investments and other assets. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Group has used internal and external sources of information. The Group has reviewed the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Group's financial statements may differ from that estimated as at the date of approval of these financial statements and the Group will continue to closely monitor any material changes to future economic conditions
